Competency-Focused Credentialing

Through the PRMIA Credentialing program, risk professionals demonstrate their expertise by achieving the Professional Risk Manager (PRM™) Designation or one of the risk management topic-specific certificates.

The PRM™ is the most quantitatively rigorous, competency-based certification in the market. This professional credential demonstrates advanced knowledge and understanding of critical risk topics, issues, and solutions.

**Certificate programs** allow risk professionals to focus on specific topics without immediately needing to commit to a full program of study in all risk domains. Offerings include:

- Associate PRM Certificate
- Operational Risk Manager Certificate
- Certificate of Team Leadership in Advanced Operational Risk
- Credit and Counterparty Risk Manager Certificate
- Market, Liquidity and Asset Liability Management Risk Manager Certificate

Learning and Development
